Course Content:

Live recording of all the sessions will be provided and the access of which will be open till complete duration of the course

Fees:

The fee for the entire program is **50000 INR + 18% GST for 2 months.**

Registration can be done by making a payment of 10000 INR + Taxes and sending us the acknowledgement receipt. Upon Registration, the seat will be blocked for the participant and will receive a confirmation through mail.

- Full payment of the course fee should be completed before the start of the training.
- Videos will be shared only after paying the full amount. Also, the videos shared would have access till the duration of the course.
- We do not offer any refunds under any scenario, however, in case of emergency student may be moved to the next batch on a case-to-case basis.

Absenteeism:

If any of the students are unable to attend the weekend session, they can go through the videos of the week they missed and clear the queries in the next class. Students have the option of attending the missed session in the following month.

The idea of the course is you should be able to learn and implement the hedging strategies yourself with adjustments so that you can minimize the risk and gain when the market moves in our direction before the expiry day.
